

Bridge Woods Field Archery Club

NFAS Open Shoot 2nd Oct 2017

On an over cast Sunday morning in October, Bridge Woods' hosted their NFAS Open Shoot, promising 40 well placed and thought out target settings. Budding (and more experienced) archers started to arrive and sign in, 30 in total. Of course they are met with our happy faces, bacon rolls and hot drinks. The archers then set about tuning and setting up their equipment, then off to the practice butts to warm up those well developed, sportsman like bodies ready for the off.

As the archers walk off into the woods to find their starting positions, their banter and laughter fills the woodland site. The start horn goes and away they go, archers doing what they enjoy doing best.

First 20 targets shot and in for food and liquid, orders flying quick and fast and food coming out as ordered. The speciality of the house a 'Tower Burger' guaranteed to fill the gap. When stomachs were filled, the quivers were restocked with arrows, then out for the last 20 targets.

Pleased to say that all archers finished (none lost by the wayside) and came back for, well deserved, tea and cake, while the results were finalised.

Medals and Hunter patches were given out Thanks to all who attended. We may be a small club but a 35 acre wood was more than enough and you know what they say about great things coming in little packages! if you missed it, poor you, see you next year?
