

Bridge woods Field Archery Club Shoot

23 Sept 2018

The weather had been booked and as per usual had decided to change overnight. Wind and rain greeted those that turned out for the club shoot, 31 had been booked in but due to the weather there were a few no shows and some of those that started soon left very wet and cold.

Course 2 was shot in the morning with the wind whistling through the trees as arrows were trying to find their targets, fletches were soaking wet, everyone keen to get back to the club hut for tea and hot food. By now some more members had called it a day and left.

Course 1 was then shot in the afternoon, as the competitors entered the woodland a ball of light started to burst its way through the clouds bringing a slight increase in temperature. As the competitors were walking off the course they were met with glorious sunshine.

A big thank you to everyone who attended the shoot and stuck with the conditions, also a BIG thanks to the catering staff who under the very wet conditions kept people warm and fed.

A BIG thank you must go to the Andy (Field Officer) who as you might not be aware has (with some help) and over many hours, put together two terrific courses that are very challenging and make you think about your archery skills.

! WELL DONE ALL MEDAL WINNERS !

See you all at the next club shoot.
